...Introduction...

MASTER INTERCHANGE LIST

The purpose of this Master Interchange List is to provide complete interchangeability information on all Marvel-Schebler procurable carbureter replacement parts.

The arrangement of the list is as follows:— The "Marvel" part numbers are arranged in numerical sequence starting on the first page and proceeding to the highest "Marvel" part number. The model application is indicated for each of these part numbers. Immediately following this list is a numerically arranged list of "Schebler" part numbers. The model application for these numbers is indicated only when the "Schebler" number is not superseded by a "Marvel" number. When the "Schebler" number is superseded it is cross-referenced to the newer "Marvel" number and it is then necessary to refer to the applicable "Marvel" number for the model application.

NOTE:— The "Marvel" part number should be used whenever possible as all superseded "Schebler" part numbers are obsolete.

List of abbreviations used throughout the Master Interchange List.

Allis-Chal. — Allis-Chalmers Mfg. Co.
Cont. — Continental Motors Corp.
J. Deere — John Deere Tractor Co.
Dup. Trk. — Duplex Truck Co.
Elec. Arc — Electric Arc, Inc.
F.-R.-Heath — Fate-Root-Heath Co.
Gr.-Brad. — Graham-Bradley Co.
Hobart Br. — Hobart Bros. Co.

I. H. C. — International Harvester Co.
Ing.-Rand — Ingersoll-Rand Co.
Intercont. — Intercontinental Mfg. Co.
Linc. Elec. — Lincoln Electric Co.
Mas.-Har. — Massey-Harris Co.
Minn.-Mol. — Minneapolis-Moline Power Implement Co.
Nat.-Farm — National Farm Machinery, Inc.
Tow. Corp. — Towmotor Corp.

MARVEL-SCHEBLER PRODUCTS DIVISION

BORG-WARNER CORPORATION

MAIN OFFICE AND FACTORY
DECATUR, ILLINOIS, U. S. A.

March 31, 1961

SERVICE BULLETIN

#1-61

TO: All Manual Holders

Subject: Flooding caused by unusually rough terrain or extreme angle of operating which affects the action of the float.

Model Affected: TSX

Isolated cases of flooding have been reported on agricultural and Industrial units using subject carbureter. Investigation revealed extremely rough terrain or unusually severe angular operation of the vehicle to be the cause.

Considerable improvement can be obtained by adding a support spring and bracket to the float assembly, as shown on the reverse side of this bulletin.

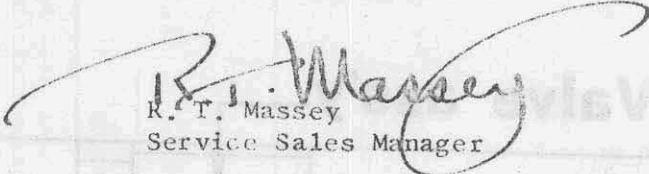

Parts Required

136-110 Spring Support Bracket \$.35 List

24-A332 Spring Float Support \$.20 List

The above parts are available from your Marvel-Schebler distributor.
